

Dear Exhibitor,

As a company in our dental community, your partnership continues to help the advancement in the field of dentistry. At The University of Tennessee Health Science Center (UTHSC), our mission is to transform lives through collaborative and inclusive education, research/scholarship, clinical care and public service. The UTHSC College of Dentistry, is the third oldest dental school in the United States and one of our major efforts in supporting our university's mission and improving patient care from dental professionals in our surrounding community, is the **William F. Slagle Dental Meeting**.

The William F. Slagle Dental Meeting (formerly the Mid-South Dental Congress) is an annual tradition for the UTHSC- College of Dentistry and our Alumni Association. For over 25 years, this 3- day continuing education conference is the spring meeting place for dental professionals in the Mid-South and surrounding communities. Dental professionals will register for courses to increase their knowledge and clinical skills , increase office productivity, build team morale and continue their efforts in providing excellent oral health care.

In addition to the conference, we have an exhibit hall that is filled with companies and partners within dentistry and other business sectors. This is an opportunity to showcase their products and/or services to our dental professionals and the start of collaborative relationships. All profits from the meeting are used to support dental education programs and services provided by the UTHSC College of Dentistry to improve the oral health of our community.

As the conference planner for the William F. Slagle Dental Meeting, I would like to invite you to participate in our 2024 meeting as an exhibitor on **March 8- 10** in Memphis, Tennessee at the Hilton Hotel- East Memphis! Your company is needed and valued and we want our attendees to learn more from you. As an exhibitor, we provide booth space, a separate hospitality room, lunch and electronic connections at each booth as needed.

Enclosed with this letter is our fact sheet and link to register. This year, we ask that all exhibitors register and pay on-line! It is my hope that you consider the possibilities of a collaborative relationship with the William F. Slagle Dental Meeting, The UTHSC College of Dentistry, our Alumni Association and the dental professionals attending our conference. For more details, you can contact our Exhibitor Manager – Janna Hays at jhays11@uthsc.edu . We look forward to seeing you in March!

Sincerely,

Lynne Moore, MPA

Director and Conference Planner, UTHSC College of Dentistry
